

ST CHRISTOPHER'S INTERNATIONAL PRIMARY SCHOOL

Principal's eNews Term 2 Issue 5 | 21st March 2020

Dear Parents

As I sit in my home, my hope is that these drastic steps the country is taking will make a difference (flatten the curve) and that we will begin to move back towards a more "normal" life very soon. We simply have not experienced this before thus there are so many unknowns and questions. Please know that SCIPS and its staff are working hard to help your children through these uncertain times.

We have now completed 3 days of learning at home and I would like to thank the teachers for their **adaptability** and **expressiveness** in creating online lessons and conferences that engage and support the students. The children for their **independence** and **resilience** as we can see that over 90% are coming online to continue their learning. Finally, all the parents for their **cooperation, support** and **feedback**.

The feedback we have received so far has helped teachers to adapt the way they are creating lessons and delivering conferences through Google Meet. Further changes may come if these 14 days of movement control order do not change, and we are all in for a longer period of self-isolation.

If this is the case, then we need to remain positive and supportive of each other. Remember to keep organised and have a routine. Try not to spend all day in front of a screen. Stay connected and please link up with the someone if you have any concerns. We are all entering a period of the unknown and uncertainty. Let's stay connected, learn as we go along and importantly look after each other.

Early Years and Infants - message from Mr Jones

Thank you for your engagement with online learning. It has been fantastic to see so many of the children engaging positively in the conferencing and activities. We are aware that our youngest learners will need a range of support to complete tasks. If you are not able to find time to access all activities, do not worry as they are all optional and focused on consolidating skills and concepts already taught in class. You will be sent an email over the weekend detailing some small changes to the structure of conferencing and further guidelines for you as parents to support your child.

Juniors - message from Miss Green

I am really happy with the level of engagement we have seen using Google Classroom since we launched earlier this week. Of course not an ideal situation, the children have coped well learning the new technology and have really enjoyed connecting with their teachers and classmates online. I thank them and the teachers for getting this whole process running so smoothly. You will be sent an email over the weekend detailing some small changes to the structure of conferencing and some guidelines for you as parents to support.

Please check our COVID-19 webpage <http://www.scips.org.my/school-life/covid-19/> for all our updated information

Stay Positive, Indoors and Safe
Martin Towse
